PROFESSIONAL SUMMARY

Motivated Software Developer specializing in .NET and modern JavaScript frameworks. Holds a Bachelor's degree in Professional Programming and currently pursuing a Master's degree in Computer Science. Proven capabilities in building RESTful APIs, Clean Architecture implementations, and full-stack web applications. Seeking an opportunity to deliver robust backend solutions, contribute to dynamic development teams, and master new software engineering technologies.

TECHNICAL EXPERTISE

Languages & Core
C#, JavaScript.

Frameworks & Web API
ASP.NET Core, RESTful APIs, ASP.NET Core MVC,Blazor

Data & ORM
MSSQL, Entity Framework (EF Core).

Architecture & Tools
Clean Architecture, Repository Pattern, Git/GitHub, Swagger

WORK EXPERIENCE

JavaScript Developer Intern – Sharp Group Kosovo, Prishtinë

Jun 2025 – Nov 2025

- Engaged in code reviews, continuous bug fixes.

FEATURED DEVELOPMENT PROJECTS

Book Management System (BMS)
Designed a robust RESTful API leveraging **ASP.NET Core** and **Clean Architecture** (Domain, Application, Infrastructure, API). Implemented Repository Pattern, EF Core Code First migrations, MSSQL, and interactive API documentation with Swagger.

Product Management System (PMS)
Built an ASP.NET Core Web API with Secure **ASP.NET Core Identity** authorization and role-based access control. Features structured MVC frontend, user authentication, wishlist management, and seamless transactional database operations.

EDUCATION

Master of Computer Science (MSc)
AAB College | 2025 – Present

Bachelor Professional in Programming
AAB College | 2021 – 2025
Focus: C#, ASP.NET Core, JavaScript, MSSQL, Data Science

TRAININGS & LANGUAGES

C#.NET & Full Stack Engineering
Full Stack Developer Training with focused coursework in Algorithms & C# architecture.

Languages: Albanian (Native), English (Proficient)
